# Fully Funded EV Charging Solutions

Supplied | Installed | Maintained

**CEF are delighted to offer fully funded solutions to businesses & organisations seeking to offer EV charging infrastructure. Our collaboration with Rolec EV and Wattif EV means that we can now provide a variety of funding options.**

## Funding for businesses, local authorities & land owners

Wattif EV offers the most flexible and transparent investment opportunity for EV charging infrastructure on the market.

### No CapEx & OpEx Solution

FULLY FUNDED

- No EV infrastructure costs
- Turnkey solution
- 20% Client revenue generation
- Full site management

An ideal solution for businesses, local authorities, and land-owners seeking to offer public EV charging and generate revenue without making any investment.

### Share Costs & Revenue in a Joint Venture

PART FUNDED

- 50/50 Shared investment
- OZEV grant access
- 50% Client revenue generation
- Full site management

An ideal solution for businesses, local authorities, and land-owners seeking to offer public EV charging with reduced upfront costs, while generating shared revenue.

### Zero CapEx – Fixed Monthly Solution

MONTHLY SUBSCRIPTION

- No upfront EV infrastructure costs
- Turnkey solution
- OZEV grant access
- Full site management

Perfect for businesses that want to provide EV charging and do not seek to generate or share revenue. Choose the level of investment and fix a monthly fee.

**Whichever model, Wattif EV will always operate & maintain the chargepoints. All operating costs are included.**

### Who are Rolec EV?

Rolec EV are one of the largest manufacturers and suppliers of AC fast & DC rapid charging points, with over 15 years in the industry. Providing solutions for fleets, workplaces, and commercial locations.

### Who are Wattif?

Wattif EV serves as a funding solution provider; with fully funded, part funded, and subscription solutions available for businesses, local authorities, and landowners enabling you to offer them free EV chargepoints, installation and management.

Earlier this year, Wattif EV secured €50m from a leading Pan-European investment fund to underpin their strategy to become one of Europe's leading destination charging providers.
